THE VICTORIA EXHIBITION

IT PROMISES TO BE A MOST DECIDED SUCCESS

All Sorts of Articles Shown—Live Stock in Plenty—Works of Art and Industry Exhibited—A Busy Day at the Grounds—Awarding of Prizes.

From the earliest hour this morning and all through the night, a crowd of busy workers have been getting things into shape at the Exhibition grounds. All day, too, the finishing touches were being put on the arrangements, all the exhibitors being desirous of giving a good impression. And a good impression will be given.

While spoken of as the Island Exhibition, it should not be forgotten that the Mainland has contributed a large quantity of stock, fruit, vegetables, etc., none better from anywhere than that from the Delta lands of the Fraser. The men from the Mainland have come out in force, and in consequence of this, together with the splendid show made by the Islanders, an exhibition second to none, has been made possible. To-day the judges will commence their work, and from a hasty glance their task will be no sinecure, as the excellence of the many articles is so pronounced that it will be no easy matter to determine which is the best.

THE GROUNDS.

A visit was paid to the grounds this morning by a TIMES' man, and a general idea of the arrangement of the exhibits gained. At the left of the entrance gate is the poultry shed. Here are coops of all sorts of feathered bipeds. From the tiny but sweet singing canary to the lordly and dignified turkey, a collection of domestic birds can be seen, and rivalled by the famous one said to have been made by Noah. Geese and ducks, whose fatness is suggestive of future Christmas fare, are gazing contentedly from their small pens. Turkeys, which would serve for a Gargarantuan repast, strut proudly around their narrow rooms. Hens, capable from appearances, of laying two eggs a day, with an extra one occasionally, are accompanied by plump pullets, whose rounded breasts proclaim their fitness for pies. The collection is a good one, and the only matter causing surprise is the fact that when such splendid poultry can be raised here, how it is that more of it is not offered to the public.

Just beyond the poultry pens is the secretary's office. That worthy gentleman, at the time of the newsman's visit, was a much wanted man. Exhibitors on every hand wanted to see Mr. Renouf about some matter or other connected with the show, and the secretary was kept busy going from one part of the grounds to the other, answering inquiries, and helping folks out of difficulties. One gentleman, who had been looking for the secretary, but who could not find him for a time, being busy at some other part of the grounds, was heard to say that it would be a good idea to put a bell on that official, as people were so eager to find him. The suggestion, needless to say, was not adopted.

THE STABLES.

Down the left side of the grounds, stables for the accommodation of neat cattle and horses have been erected and fitted up. Comfortable quarters they are, too, and every stall is full. The animals shown are good ones. On the right side are the cattle sheds. Here are seen male bovines, broad of back, thick of neck and clean of limb, with a general appearance worthy of the brush of a Bonheur, are there. Gentle looking cows, with milk-producing capacities simply marvellous, are accompanied by young calves, grown sufficiently out of infancy to prove that they are the sons and daughters of splendid stock. The equine race is also well represented. Clean-limbed roadsters, fiery stallions, broad-chested and heavy-legged draught horses, pretty looking fillies and many all round general purpose horses have been gathered in the stables, and the whole assemblage is a most excellent one.

THE PENS.

At the lower end of the grounds the sheep and swine pens are arranged. Porkers, with a degree of fat almost astonishing, lay grunting placidly among the clean straw. Little pigs poke their noses through the interstices of the pens, gazing inquisitively at the spectators. Fat sheep, with a bland expression, meditatively chew the cud, while crooked-horned rams blink benignly at the crowd, no doubt wondering in their sheepish minds what it is all about.

THE RING.

A goodly-sized ring has been staked off in the center of the grounds, and here the live stock will be put through its paces. The public will get a good chance to see, as elevated seats have been arranged at one side of the ring, the heads of the exhibition evidently having been painstaking in their arrangements pertaining to the comfort of visitors.

THE MAIN HALL.

In the main hall a busy and attractive scene was going on. Under the willing hands of the industrious exhibitors order was rapidly being evolved from chaos. Down the left side of the hall, stands covered with every known sort of flowering and decorative plants, had been arranged. On the right side vegetables of mammoth size are displayed, together with cereals and their products. The centre of the hall is taken up with exhibitions of a special character, a stack of Island breadstuffs, a sample of iron work turned out at the Albion, a pyramid of tinned salmon, a stone and ware exhibit, a house built of soap by Pendray, a hot-water heating apparatus in working condition, were among the features, while around the sides of the hall are to be seen samples of boat building, furniture manufacturing, plumbing, and a thousand other things which must be seen to be fully appreciated.

THE GALLERIES.

The lighter and more fragile and perishable articles are shown in profusion in the galleries. To mention all that can be seen here would take a whole page of this paper. Works of art, needle work, [illegible] manufacture and a thousand and one other exhibits serve to show some of the resources and capabilities of the earth and her children, particularly that part of it in and surrounding Victoria. The whole arrangements here, as in the other departments is first-class, and there is no doubt of what the verdict of the public will be when the exhibition is opened to-morrow. Then a finished appearance will rest over the whole display, and the completeness and variety of the exhibits can be better seen and admired.

SPECIAL EXHIBITS.

Among the many exhibits of a special nature may be mentioned a magnificent display of hardware and cutlery by Richardson & Heathorn. The firm also show a Stafford hot water heater and radiators, the plumbing on which has been done by Colbert & Warner. The whole arrangement of the articles shown is artistic and striking, and gives a good idea of the extensive stock handled by the firm.

In soap, Pendray & Co. made a brave showing. Tons of soap are used in the building of a house. At the entrance of the structure is a lion carved from brown soap. It is the work of Fisher, the marble cutter. The soap house is filled with all sorts of fancy and toilet soaps. The variety is immense, and shows what can be done in Victoria. One of the blocks of soap, forming the walls, weighs 1800 pounds, and other blocks of 600 pounds weight are used. All kinds are shown, and the display of cleansing stuff is good. Beside soap Pendray & Co. show vinegar, soda, shoe blacking, stove polish, extract of soap, solid and liquid blueing, the whole being the product of their factory on Humboldt street.

The Albion Iron Works Co., shows a fine collection of stoves and ranges made by them. Several propellers are also exhibited. A piece of H. M. S. Amphion's bilge keel, which was torn up when she struck last winter, is one of the curios on view.

Boat building as an art is exemplified by J. H. Seeley, he showing one of the neatest pleasure craft imaginable.

John Weller has furnished a boudoir and very cosy and pretty it looks. One would almost expect to see the occupant walk out, so perfect is the picture.

Hastie & Erskine have a set of drawing room furniture made by them, which shows up splendidly.

Lockhart & Co. also show drawing-room furniture, which is a marvel of upholstery.

M. W. Waitt & Co. have several pianos on view.

Arthur Churton has a fine display of dressed bear, wolf, seal, otter, mountain goat and other skins. The brilliancy of the fur and the pliability of the dressed skins was specially noticeable.

A model steam engine, entered by Master Rex Harris, built by Mr. C. M. Fox, is one of the attractive objects of the show. Though small it is complete in every detail. The most critical mechanical engineer could hardly find a fault with the work. The engine is about 1.5 inch stroke by .75 inch diameter of cylinder. The boiler is perfectly fitted as well, being made with all the necessary guages. As a means of furnishing power for a sewing machine the engine is a success.

Some specimens of carved work by Amb. Lafrance is worthy of notice. The work has been all done with a common jack-knife.

The kindergarten school shows some very neat samples of work done by the little tots, and proves how well the object lessons teach.

Paintings and drawings of much merit adorn one section of the hall. The execution in many of the pictures is first class.

In fancy work, such as ornamental quilts, tidies, clothing, etc., the ladies have fairly outdone themselves. Truly the dept fingers of the fair makers are aided by an artistic sense of the beautiful.

Miss Berridge shows herself an artist in wood. A carved footstool the work of her hands is one of the best pieces of work of its kind which could be done.

Butter of a rich golden hue and with a fragrance which delights the epicure is exhibited. Cakes, bread and biscuits of the kind "our mothers used to make" is to be seen. The judges who have the privilege of sampling the goodies, are to be envied.

An orange tree with fruit growing on it is shown by Mr. M. Baker. The sight is a rare one for Victorians, and will attract considerable attention.

Pumps made by Street of Duncans Station are suggestive of limpid and cool water drawn from the depths of some stone-lined old well under the shade of a big tree.

WAGONS, ETC.

J. & P. Armstrong have on exhibition coal carts, lumber wagons, heavy lumber trucks, etc., built in Ottawa, but for sale by the firm here. The strong construction of the vehicles was a matter of special comment by mechanics. The iron work and whole finish is of a superior kind. Messrs. Armstrong also have on sale a team of splendid draught horses, which would do well to draw one of the rigs. A heavy load could also be drawn from the strong look of horses. The parties purchasing the rig will get a servicable and useful team.

A DISH WASHER.

One thing of the exhibition which will interest the ladies is a patent dish washing machine. All that has to be done is to put in the dirty dishes, a piece of soap, the hot water, and then turn a crank. Presto, the dishes are clean. The dirty water is drawn off, clean rinsing water poured over the dishes, and the disagreeable work of dish washing is done.

ELECTRICAL.

The B. C. Electrical Supply Co. have a fine exhibition of electric alarm calls, batteries, show tables, etc. The display, a complete one, is the first of its kind ever made in the province.

TO-DAY'S DISPATCHES.

THE PAPER MAKERS TOWER THE PRICE OF PAPER

Two Prominent Business Men Fight With Revolvers—A Tie-up of the Adams Express Company Severely Felt—$50,000 Damages for Breach of Promise.

LONDON, Oct. 2.—The coroner's jury in the case of Easton, the man who so tragically ended his life by shooting himself in St. Paul's cathedral, during morning service on Sunday last, has completed its labors, bringing in a verdict that the man committed suicide while insane. Easton left a letter in which he declared his purpose of committing suicide. His object, the letter says, was to overturow false Christianity.

A New Commander.

LONDON, Oct. 2.—General Lord Wolseley, accompanied by his staff, to-day left England for Dublin, where he will place himself at the head of the troops in Ireland.

Order Refused.

DUBLIN, Oct. 2.—Judge Holmes, of the high court, refused to issue the writ applied for on behalf of defendants in the Tipperary case, prohibiting the sitting magistrate from proceeding in the trial of Dillon and O'Brien on the ground of bias. Nothing more can, it is understood, be done toward changing the magistrates now sitting in the case. Nationalists, however, believe their protest against proceeding to trial under magistrates whom they believe to be prejudiced against them will have its due effect on public opinion.

More Bruising.

LONDON, Oct. 2.—Arrangements have been completed by cable for the meeting of Peter Jackson and Frank P. Slavin, at the Melbourne Athletic Club, within the next six months. A purse of $3000 has been guaranteed.

A Fatal Quarrel.

SACRAMENTO, Oct. 1.—Late last night John Burns, a hop picker, and Robert Watts, a cripple, quarreled in a saloon about paying for drinks, when Watts hit Burns with his crutch. The latter drew a pocket knife and stabbed Watts in the abdomen and back. The doctors say the wounded man cannot live.

Death on the Elder.

SAN FRANCISCO, Oct. 2.—John Thorpe, stevedore, thirty years of age, fell through the hatchway of the steamer Geo. W. Elder yesterday, and died last night from his injuries.

Irish Policy.

LONDON, Oct. 1.—The arrests and trials in Ireland still occupy a considerable share of public attention. John Morley and Commoner Illinworth, who were among the crowd at Tipperary on Thursday, when the police clubbed the people, have expressed their willingness to appear as witnesses of the assault, should the matter come before the court. An exemplification of the awakening of English opinion regarding Ireland is found in the action had by the Baptist denomination now in session in annual assembly. This body has, among other resolutions, adopted one severely condemning the Irish policy of the government. The body also passed resolutions favoring free education and expressing sympathy with the movement in the direction of bettering the condition of the working people.

Threatened Strike.

LONDON, Oct. 1.—The Morning Post declares that Scotland is threatened with one of the gravest industrial crisis in her history, in the shape of a general strike in the ship building trades. The penalty for such folly will be heavy on both sides.

Sydney Scorched.

SYDNEY, N. S. W., Oct. 2.—A fire last night resulted in the destruction of the City Bank, Athenum Club building and a number of large warehouses. The fire burned fiercely resisting for a long time the best efforts of the firemen to get it under control. In addition to the warehouse absolutely consumed by the flames, a number of others were more or less damaged by fire and water. The loss it is estimated will reach a million and a half pounds sterling.

To Lower the Price.

CHICAGO, Oct. 2.—The western straw wrapping paper manufacturers of the district west of the Alleghany Mountains held a secret meeting at the Sherman House this morning. Seventy-two mills with a total daily output of 300 tons, were represented. It is proposed to select two "sales agents" whose duty it shall be to enquire into the state of the market and keep the mill owners supplied with information. President Castle denies that the trust was about to be formed, "we simply want to reduce the expense of producing wrapping paper which now costs $110 per 100 pounds" said he. J. H. Halliday and M. G. Meade were appointed "sales agents."

An Old Quarrel.

LEBANON, Ind., Oct. 2.—Al. Hover and Alex. Lane renewed an old quarrel on the streets of Joliettville, a little town eight miles east of here, at noon to-day over $600 that Lane had of Hover's money. Hover demanded a settlement and Lane said he intended to keep the money whereupon they began a hand to hand combat. Lane finally pulled a revolver and fired five shots at Hover, fatally wounding him. Both were prominent business men. Lane has been arrested.

A Strong Minded Girl.

CHICAGO, Oct. 2.—Suit was begun today by Mary H. W. Mason, daughter of Llewellyn Mason, a conductor on the Alton road, against Edward L. Graff, for $50,000 for breach of promise. Graff is a member of the well known jewelry firm of May, Graff & Co., and a reputed millionaire. The plaintiff is a pretty blonde of 19 years, and claims that Graff has repeatedly promised to marry her, but failed to do so. Graff is out of the city, and his partners will not talk. Miss Mason is made of sterner stuff than most girls, and as she recognized the fact that her lover was in earnest in putting off the wedding she did not faint as some girls would have done. She has been through exciting scenes before, and has become used to them. [illegible] a burglar in the act of [illegible] and armed with a flat-iron commanded him to desist. He desisted, and Miss Mason chased him through an alley, around two blocks, and would have branded him with her flat-iron had not a policeman appeared and rescued the unfortunate burglar.

An Express Tied Up.

ASHBURY PARK, N. J., Oct. 2.—The tie up of the Adams express by the freight handlers and porters at Jersey City this afternoon was felt very severely at all the sea coast towns on the line of the New York & Long Branch railway, which is operated by the Pennsylvania Railway Company, over whose line the Adams people control the express business. Since to-day not a piece of express had been received from New York by the agents at Redbank, Long Branch, Ashbury Park and other shore towns. In many instances where perishable fruit was delivered to the Adams Express Co. in New York for transportation to those towns, it was turned over to the United States Express company, which is a rival of the Adams. People along the New Jersey coast, and many of the butchers of Long Branch and Ashbury Park, who receive their daily supply of meat via the Adams Express company, under special contract, telegraphed their shippers to forward their meats by the United States Express Co.

A Railway War.

NEW YORK, Oct. 2.—A Chicago dispatch says that Chairman W. W. Finlay of the Western Passenger Association, assumed the duties of his office to-day, and at once got into hot water. He received a notice from the general passenger agent, Townsend, of the Missouri Pacific, to the effect that because of the arbitrary action of the Chicago lines in making an excursion rate of one fare for a round trip from Texas points to Chicago, consequent upon the St. Louis fair rates authorized his corporation proposes to retaliate by selling round trip tickets to St. Louis at one fare from Denver, Colorado Springs and intermediate points in Colorado and Kansas and beyond prescribed territory of regular "agreed exposition" business. That action will it is expected cause a general demoralization in the southwestern roads and especially as the Chicago lines deny that there are any such rates from Texas as Manager Townsend speaks of.

A Female Spy.

PARIS, Oct. 2.—A woman has been arrested at Cannes by the French authorities, who is charged by them with being a German spy. She is named Benner. At the time of her arrest plans of fortresses and other defensive works of France were found in her possession. She has now made a confession in which she admits she was in the employ of the German government as a spy. The woman represented that she was paid at the rate of 300 francs per month for her services, and also allowed 15 francs a day for travelling and incidental expenses.

THE CAPITAL.

There Will be no General Election till the Year 1892.

[Special to the TIMES.]

OTTAWA, Oct. 2.—A special dispatch from Sir John Macdonald, now at Halifax, states that there will be no general election before next year and probably not until 1892. This bears out Sir Hector's statements regarding the matter.

A SEALED VERDICT.

A Jury Awards $10,000 as Balm for a Wife's Affections.

BALTIMORE, Oct. 2.—The jury in the case of John Silberecht against William B. Evans for $75,000 damages for alleged alienation of the affections of Mrs. Silberecht, now Mrs. Evans, presented a sealed verdict last night, which was this morning read in court. It gives plaintiff $10,000 damages. The testimony presented by the plaintiff was to the effect that Evans, after gaining the affections of Mrs. Silberecht councilled the securing of a divorce from her husband because of family dissensions while at the same time advising Silberecht to let the case go by default. Silberecht did not appreciate the true condition until after the divorce was granted, and Evans immediately married Mrs. Silberecht. Evans is a very rich contractor and will probably appeal the case.

A BOLD TRAIN ROBBERY.

Two Masked Men Relieve an Express Agent of a Railway Train.

TIFFIN, Ohio, Oct. 2.—As train No. 2 on the Cincinnati, Sandusky and Cleveland road was pulling out of Urbana at 3 o'clock this morning two masked men broke into Adams' Express Company's car and presenting a revolver at the head of Archer L. Scudder, the express manager, demanded the express keys. Scudder surrendered and was then bound hand and foot and gagged. The robbers rifled Scudder's pockets, securing $75 in money, his watch and keys with which they opened the safe and took the contents consisting of about one thousand dollars. The train had reached West Liberty by this time and the robbers left the car. Scudder succeeded in calling the attention of the local agent to his condition and was liberated and an alarm given, but the robbers covered the train men with guns and ordered the train to proceed which it did. Just as it reached Bellfontaine the robbers left the train and disappeared in the darkness with the booty.

Facts and Figures.

Thousands of people have been cured and thousands will be cured by the use of Burdock Blood Bitters, the best remedy for Biliousness, dyspepsia, constipation, bad blood, loss appetite, etc. Millions of bottles have been sold and all have given satisfaction.

ESCAPED FROM SIBERIA.

A Russian Fugitive Brings Fresh Stories of the Czar's Cruelty.

SAN FRANCISCO, Sept. 30.—The Examiner this morning prints a two-column interview with Egor Lazareff, a Russian fugitive from Siberia, who is at present in this city. Four months ago, by secret means, he made his way through the lines of Cossacks which encircle Irkutsk, and tramped on foot, on horseback and by water to Nikolaifsk, at the mouth of the Amoor River, and thence across the North Pacific.

Lazareff's misfortunes date back to 1874, when a political outbreak in the province of the Volga resulted in the seizure of 2,000 prisoners, including himself. They were given no trial, not even told of what they were accused. He served four years' imprisonment and was then drafted into the Russian army. Four years later he was again arrested, and served another year's imprisonment. Again in 1884 a political uprising in the province where he was practicing law caused his arrest, and he was sent to Siberia for three years.

Lazareff said that if once arrested, whether for cause or not, a Russian continues an object of suspicion and is liable to arrest at any time, and may be thrown into jail without ever knowing the charge against him.

On his release from Siberia he again began the practice of law, and for several months remained unmolested. In February, 1888, however, he was seized on a charge of having written a political address during his former term of imprisonment, and by order of the Czar was sent to Siberia for five years. In August a party of prisoners, of which he was one, began the trip on foot to Irkutsk, which they did not reach until the following February, having traveled thirty or thirty-five verstes a day through rain, snow and fog over the frozen plains and mountains. Men, women, and children were chained together. The female prisoners were subject to insults, not only from fellow convicts, but from their guards. Blows, scant and poor food, and little sleep marked the whole of the long journey.

At Irkutsk every indignity was offered the prisoners, and the only thing that kept many of the unfortunates alive was the hope of ultimate escape. Although the prison and city were surrounded by an almost endless chain of sentinels, Lazareff and one other convict managed to escape one dark night and took separate roads for freedom.

Though pursued, Lazareff eventually managed to reach the coast and boarded a British steamer for Japan. He arrived here September 17, and his sole desire is to meet George Kennan and help on the movement to bring the whole subject of Siberian cruelty before the Czar.

TO SAVE THE IRISH.

American Relief Committee Organized and Contributions Solicited.

NEW YORK, Sept. 30.—The Sun tomorrow will publish an appeal to the people of America from the American committee for relief of the famine in Ireland. It says.

The point of actual suffering from hunger is not yet reached, but the days of starvation are not far off. In the last great famine, in 1878-79, Parnell, Davitt and others who voiced the country's appeal for food, pledged themselves never again to appear as supplicants before the world on behalf of starving Ireland, so no appeal has been sent out and probably none would come from that source until the situation became desperate. A movement is on foot among well-known men not connected with Irish societies, to bring to the attention of America the appaling calamity which threatens Ireland before actual death from hunger has claimed victims.

It has been decided to organize under the name of the American committee for the relief of the famine in Ireland. This committee will make its work cover both North and South America. The personnel of the American committee contains the following names: Chairman, General James Grant Wilson, honorary chairmen, Hon. Rutherford B. Hayes; Hon. Grover Cleveland; vice-chairmen, James Redpath, George Ehret, Colonel Elliot F. Shepard, James Phillips, jr., treasurer, New York Sun; secretary, Arthur Dudley Vinton. Chauncey M. Depew has accepted the chairmanship of the sub-committee on transportation. The committee appeals for immediate contributions of money, provisions and clothing.

CANADIAN NEWS.

Items of Interest Received by Telegraph from Different Points.

The English relatives of Thomas Veitch, aged thirty, who has been a resident of Fenelon township for ten years, and who left last October for Australia, are feeling anxious about him. His steamship ticket has not yet been taken up, and nothing has been heard of him since his departure, although previously he was a regular writer.

Charlie Brown, the bank thief, who is known throughout this country and the United States as "Little Horace," was sentenced at Montreal on Tuesday to seven years in the penitentiary for stealing $180 from the Ville Marie Bank.

As a result of the wish expressed by the Chamber of Commerce of Montreal and Quebec, the Government has decided to be represented at the Jamaica exhibition, and has ordered the construction of a handsome pavilion to contain the products of the province.

Dr. Lovingheart, alias Campbell, was arrested at Calgary on Tuesday afternoon, on a warrant, charging him with rape in Hamilton, Butler county, Ohio. The doctor, when under indictment, jumped on his horse and escaped to Canada, making his way as far as Calgary, N. W. T.

The excitement over the great Burchell trial is fast subsiding. While everybody is satisfied as to the justice of the verdict, universal sympathy is felt for the young wife, who is suffering severely from the strain of the past week and the result of the trial. Burchell seems unmoved by his sentence. He drew a fancy picture this morning for a friend who called to ask after him, and signed it "J. Rex Burchell, Oct. 1, 1890." He shows no sign whatever of fear, and evinces no animosity toward those who testified against him. Another guard was appointed this morning, so that there will now be a guard in his cell with him continually night and day. His daily walk to the jail yard has been discontinued, and he will never more go down the jail staircase until he goes to the gallows.

Sir John Thompson, Hon. C. H. Tupper and Sir John Macdonald addressed a large meeting of their friends at Halifax, N.S., on Tuesday evening. They all announced themselves as favoring reciprocity with the States and said that the efforts of the Dominion Government had been made in that direction, particularly referring to Sir Chas Tupper's visit to Washington, when he was authorized to negotiate for reciprocity and a full settlement of the fishery dispute. Sir John Thompson [illegible] ment, owing to the farm [illegible] United States, to subsidize fast steamship lines on the Pacific and Atlantic, thus giving our people facilities for transporting their produce and manufactures in a rapid manner to China, Japan and Australia, and the great markets of Europe. Sir John Macdonald made a speech, the only important announcement in it being that there would be no general elections before 1891, and possibly not before 1892.

Love of Notoriety.

LONDON, Sept. 30—[New York Herald Cable]—Little Alice Drumont, aged 10, was a prisoner to-day at the Mansion House, charged with being a "bridge jumper." The constable who testified against her declared that he saw the diminutive prisoner climb upon a parapet of London bridge, and throwing off her clothes, prepare to jump into the river. She was urged to attempt the hazardous feat, witness declared, by a woman, who turned out to be the child's mother, and to complete the picture of this unnatural treatment her father was waiting below to pick up his daughter dead or alive.

On being taken into custody the mother declared that they were a family of professional swimmers, and that 10-year-old Alice had already been in the business six years, and had dived from heights running up to forty feet. This extraordinary and criminal zeal for notoriety, was severely censured by the magistrate, who bound the parents over in £20 to keep the peace.

Should be Imitated.

LONDON, Sept. 30.—The St. Petersburg correspondent of the Daily Telegraph says: The Russian minister of the interior is preparing a law authorizing the deportation to Siberia without trial of all foreigners who have been expelled from their own country and whose government refuse to recognize them. The law is directed against Roumanian Jews who came to Russia.

The Queen Pays All Expenses.

The Queen's last "Free Trip to Europe" having excited such universal interest, the publishers of that popular magazine offer another and $200 extra for expenses, to the person sending the largest list of English words constructed from letters contained in the words "British North America." Additional prizes, consisting of Silver Tea Sets, China Dinner Sets, Gold Watches, French Music Boxes, Portiere Curtains, Silk Dresses, Mantel Clocks, and many other useful and valuable articles will also be awarded in order of merit. A special prize of a Seal Skin Jacket to the lady, and a handsome Shetland Pony to the girl or boy (delivered free in Canada or United States), sending largest lists. Everyone sending a list of not less than twenty words will receive a present. Send four 3c. stamps for complete rules, illustrated catalogue of prizes, and sample number of the Queen.

Address, The Canadian Queen, Toronto, Canada. au29-dw2m

A Word to the W. C. T. U.

Won't the W. C. T. U., asks Kate Field, please turn its attention for a half-hour to the wickedness of women? I believe the Bible counsels us to take the beam out of our own eye before removing the mote from our brother's. Now, what has the Chicago Board of Pharmacy discovered? That American women spend about $62,000,000 a year in cosmetics, most of which are made of zinc, oxide, calomel and similar poisons. How can women vain enough to paint and to dye their hair, bring forth children stalwart enough to resist temptations that lead to all manner of vice, including vice? W. C. T. U., begin with the women, and the men won't need reforming.

Wisdom's Violet Cream.

Is a new and elegant preparation for eradicating and preventing roughness of the face and hands. Use it freely at night just before retiring and you will be delighted with a soft, smooth skin. Try it. D. E. Campbell, agent.

Faber's Golden Female Pills.

For Female Irregularities; nothing like them on the market. *Never fail.* Successfully used by prominent ladies monthly. Guaranteed to relieve suppressed menstruation.

SURE! SAFE! CERTAIN!

Don't be humbugged. Save Time, Health, and money; take no other.

Sent to any address, secure by mail on receipt of price, $2.00. Address,

THE APHRO MEDICINE COMPANY, Western Branch, Box 27, PORTLAND, OR.

COCHRANE & MUNN, Druggists, cor. Yates and Douglas streets, Sole Wholesale Agents for Victoria. jan21-r-eod

HAGYARD'S YELLOW OIL CURES RHEUMATISM

FREEMAN'S WORM POWDERS

Are pleasant to take. Contain their own Purgative. Is a safe, sure and effectual destroyer of worms in Children or Adults.

DAY AND MARTIN'S English BLACKING

WHITE CAPS ATROCITY.

A Defenceless Woman Shot by Masked Brutes.

[illegible] Sept. [illegible] cap outrage which occurred in Calhoun county Saturday night. A band of masked men went to the house of Mrs. Jane Cody, a widow, and dragged her from bed with the intention of flogging her. They started to the woods with her, but she broke away and attempted to run. She had gone only a short distance when a volley was fired and a load of buckshot took effect in her side, inflicting a fatal wound. The White Caps fled when the woman fell, and she lay there until morning before she was found. She was unable to describe her murderers. So far as known Mrs. Cody's only offence is that of the neighborhood that men visited her house at night.

MUNICIPAL.

A BY-LAW.

To enable the Corporation of the City of Victoria to raise the sum of $300,000 for Sewerage Purposes.

AND WHEREAS, IT IS EXPEDIENT TO raise the sum of $300,000 for the purpose of constructing a general system of sewerage works for the benefit of the City of Victoria.

And whereas, for the purpose aforesaid it will be necessary to raise by way of loan, upon the credit of said Corporation the sum of $300,000.

And whereas, it will require the sum of $14,659.65 to be raised annually by special rate, for the payment of said debt and interest as hereinafter mentioned.

And whereas, the amount of the whole rateable property of the said Corporation of the City of Victoria, according to the last revised assessment roll, being for the year 1889, was $3,918,903, irrespective of any future increase of the rateable property of the said Corporation of the City of Victoria, and of any income in the nature of tolls, interest or dividends from any stock, shares or interest in the work upon which the money so to be raised or any part thereof, is intended to be invested, and also irrespective of any income from the temporary investment of the sinking fund or any part thereof.

And whereas for the saving of interest and creating an equal yearly sinking fund for paying the principal sum of $14,659.65 and interest as hereinafter mentioned, it will require an equal annual rate of 164-1000 of one per cent. in the dollar.

And whereas it is the intention of the Mayor and Council of the Corporation of the City of Victoria that three persons, to be called Commissioners of Sewerage, shall be appointed to superintend the construction and erection of such sewerage works, and confirm all disbursements and outlays in connection therewith.

Therefore be it enacted by the Mayor and Council of the Corporation of the City of Victoria as follows:

1. It shall be lawful for the Mayor of the said Corporation of the City of Victoria, for the purpose aforesaid, to borrow or raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, the said sum of $300,000, and cause the same to be paid to the Treasurer of the said Corporation, and in respect thereof for the said Mayor to issue debentures of the said Corporation to the amount of $300,000, in sums of not less than £200 sterling, or its equivalent, each payable at the end of fifty years from the date on which this by-law takes effect, and to bear interest at the rate of four per cent. per annum, payable half yearly, on the 26th day of May and on the 26th day of November in each and every year during the currency of the said debentures.

2. The said debentures, as to principal and interest, shall be payable at the office of the Bank of British North America in London, England, New York City, New York State, United States of America, or Victoria, Province of British Columbia, Canada.

3. It shall be lawful for the Mayor of the said Corporation of the City of Victoria, and he is hereby authorized and instructed to sign and issue the said debentures hereby authorized to be issued. The Clerk of the said Corporation is hereby authorized and instructed to attach the seal of the said Corporation to the said debentures after such signing by the Mayor.

4. For the purpose of forming a sinking fund for the payment of the said debentures, and the interest at the rate aforesaid to become due thereon, an equal special rate of 164-1000 of one per cent. in the dollar shall, in addition to all other rates, be levied, raised and collected in each year upon all the rateable property in the said Corporation during the continuance of the said debentures, or any of them.

5. This by-law shall, before the final passage thereof, receive the assent of the electors of the said Corporation in the manner provided by the Municipal Act, 1889, and amending Acts.

This by-law shall take effect on the 20th day of November, 1890.

This by-law may be cited as the "Sewerage Loan By-Law, 1890."

Passed the Municipal Council this 6th day of August, A.D. 1890.

Received the assent of the ratepayers the 18th day of September, A.D. 1890.

Reconsidered and finally passed the Council this 20th day of September, A.D. 1890.

(L.S.) JOHN GRANT,
WELLINGTON J. DOWLER, Mayor.
C. M. C. sep40-tf

A BY-LAW

To Repeal the "Fire Prevention By-law."

Be it enacted by the Council of the Corporation of the City of Victoria as follows:

SHORT TITLE.

1. This By-law may be cited as the "Fire Prevention By-law."

INTERPRETATION.

2. The interpretation By-law applies to this By-law.

FIRE WARDENS.

3. The Council shall, at its first meeting after each annual election, or as soon thereafter as conveniently may be, and from time to time as [illegible] for each ward or [illegible] ward, and [illegible] office until his successor is appointed.

4. The Mayor and Fire Wardens shall have supervision and control of the officers, members and employees of the Fire Department and shall prescribe the rules for its discipline and management. The Mayor and Fire Wardens shall have control and management of the public property now pertaining to the Fire Department of the said City of Victoria, and shall from time to time in their sound discretion, always subject to the approval of the Council, purchase, add to and acquire when necessary, or sell and dispose of when not required for the use of the Department, engines, hose carriages, hose and such other property as the exigencies of the Department may require. The Mayor and Fire Wardens shall, on the first day of January of each year, or so soon thereafter as practicable, report to the City Council the estimated amount of salaries and other necessary expenditures of the said Fire Department for the ensuing year.

5. No person shall impede in any way or hinder any Fire Warden, Fireman or other person under the direction of the Chief Engineer of the Fire Department or other officer in command at any fire or fires.

OBSTRUCTING APPARATUS.

6. No person or persons shall willfully or carelessly permit any vehicle to obstruct the progress of the apparatus of the Fire Department going to or returning from a fire, alarm or drill.

BREAKING BLOCKADE.

7. No person or persons, save and except the Mayor, Fire Wardens, Police, Firemen and owners, occupiers or employees of buildings endangered by fire, shall be permitted to enter any burning building or within the lines designated by ropes or guards across all or any streets, lanes or alleys, and any person or persons entering within the lines designated by the ropes or guards, or refusing to move when directed to do so by any police officer or officer of the Fire Department shall be liable to a fine or imprisonment, or both, as provided for in this By-law.

DRIVING OVER HOSE.

8. No person or persons shall run over with any vehicle the line or lines of hose in use at any fires, alarms or drills, so as to injure the said hose.

RIGHT OF WAY.

9. All moveable apparatus of the Fire Department shall have the paramount right of way at all times through all streets, lanes and alleys.

FALSE ALARMS.

10. No person or persons shall, without reasonable cause, make or circulate or cause to be made or circulated any false alarm of fire by utery, ringing of bells, or otherwise.

11. No person or persons shall break, remove or injure any of the parts or appurtenances of the fire alarm telegraph without authority from the Chief Engineer of the Fire Department who shall report such action to the Fire Wardens.

12. No person or persons shall make or fit any key to the lock of any signal box of the fire alarm telegraph, have or retain in his or their possession, or under his or their control a key belonging to or fitted to open the lock of any signal box without authority from the Fire Wardens and Chief Engineer of the Fire Department so to do, or pick or force the lock of any such signal box.

13. No person shall put or place, maintain or suffer to be or remain, any article, thing or matter on or upon the sidewalk so as to interfere with the free access or approach to any signal box of the fire alarm telegraph.

14. Any person moving or intending to move any house or building in, on and through any street or streets where it may become necessary to interfere with any fire alarm wire, shall give due notice to the Fire Wardens and Chief Engineer of the Fire Department before commencing to remove said house or building. The person moving said house or building shall give security in coin, not less than twenty-five dollars, and any other security that may be necessary to defray all expenses in taking down, removing, fixing and repairing said fire alarm telegraph or any portion thereof, or any damage thereto in consequence of the moving or removal of the house or building.

FLYING KITES.

15. No person shall raise or fly a kite within the city limits.

FIRE ESCAPES.

16. Every building of three stories or more in height, occupied or used as a hotel, boarding or lodging house, or any factory, mill, manufactory or workshop, shall be provided with good and sufficient means of egress in case of fire. Every building in which operatives are employed above the first floor shall be provided with metal fire escapes, and women and children shall not be employed above the second story of any factory, shop or printing office unless there are two or more means of exit. All fire escapes shall be built and placed in accordance with the instructions of the Chief Engineer of the Fire Department or other officer appointed by the Fire Wardens, shall be kept free from any obstructions and shall extend from the first story to at least four feet above the roof.

17. Every building of four stories or more in height used as a store, warehouse, factory, workshop, hotel or lodging house and all theatres shall have a four inch metallic stand pipe within or near the front wall, extending from four feet above the line of sidewalk to the line of roof, and at each story there shall be proper branches with gate valves, and there shall be a Siamese inlet at the line of sidewalk, all of the proper dimensions to connect with the hose of the Fire Department.

STOVES, FIRE PLACES, ETC.

18. No smokestack or pipe of metal for conveying fire, smoke or hot air, shall be fixed nearer than twelve inches to the face of any timber, and no such smokestack or pipe of metal shall pass through any timber framing or partition of wood or lath and plaster, or through any wooden floor unless it is encircled by a rim of solid stone, brick, or metal not less than three inches wide and equal in thickness to the full finished thickness of the framing through which it passes.

64 YATES ST.
VICTORIA, B.C.

19. No person shall set or place any stove, furnace, range or vessel in which fire may be kept, in such a manner that the back thereof be less than sixteen inches from any woodwork; unless such woodwork is protected by metal, and in that case not less than twelve inches; and all iron stoves, furnaces and vessels in which fire may be kept, not built into a brick chimney, shall stand upon stone, brick, tile or other incombustible material, which shall project at least one foot from the front or floor of the same.

20. Every occupant of any building shall keep all pipeholes in any chimney in such building, while such pipeholes are not in use, closed by a proper stopper of metal or other incombustible material.

21. No occupant of any building shall permit any chimney, stovepipe or flue therein to become unclean or take fire.

ASHES.

22. It shall be unlawful for any person to deposit any ashes or cause the same to be deposited or placed, or permit the same to be or remain in any wooden vessel or upon the floor of any building, or in any place or premises belonging to or occupied by him or her, or others, or in any metallic vessel within two (2) inches of any woodwork or structure, or place, or permit any hay, straw or other combustible material uncovered within his courtyard or lot of ground within ten (10) feet of any building.

INFLAMMABLE SUBSTANCES.

23. No person shall keep any larger quantity than eighty gallons of coal oil or other oil of a similar combustible character in wooden casks, or three hundred gallons in tin, iron, stone or earthenware, or twenty gallons of crude oil, burning fluid, naphtha, benzole, benzine, or other similar combustible fluid in any wooden building; and no person shall keep any larger quantity than one hundred and fifty gallons of coal oil, or other oil of a similarly combustible character in wooden casks, or seven hundred and fifty gallons in tin, iron, stone or earthenware, or eighty gallons of crude oil, burning fluid, naphtha, benzole, benzine, or other similarly combustible fluid, in any brick building, unless the same shall be kept in a cellar properly ventilated and without a floor, or with a floor of brick, stone, cement, or other incombustible materiate, in which case three hundred gallons of coal oil or other oil of a similarly inflammable character in wooden casks, or one thousand gallons in tin, iron, stone or earthenware, may be so kept; and no person shall permit or suffer any of the fluids mentioned in this section to flow into any municipal drain or sewer.

24. Notwithstanding anything in the last preceding section contained, when fire-proof buildings, so constructed as to insure at all times a thorough ventilation thereof and used exclusively for the purpose of keeping or storing coal oil, burning fluid, crude oil, naphtha, benzole, benzine, or other similarly combustible materials, are isolated or detached at least two hundred feet from all other buildings, then any of the said fluids may be kept and stored therein without limit as to quantity, subject to the provisions hereinafter contained.

25. No person shall take, light or use in any such storage building as is mentioned in the last preceding section, any fire, either for heat, light or other purpose.

26. No person shall at any time keep or store any fluid mentioned in this By-law, in the unlimited quantity therein authorized or mentioned, unless he has obtained from the Inspector of Buildings, within one year then last, a certificate to the effect that the building in which such fluid is stored or kept is in all respects of the character and description mentioned in that section; and for every such certificate the person obtaining the same shall pay to the Inspector of buildings, for the use of the Corporation, a fee of one dollar.

27. No person shall, at one time, convey on any vehicle more than two hundred and fifty gallons of any of the combustible fluids herein mentioned or referred to.

28. No person shall keep in store or for sale or use in any building within the Fire Limits more than the quantity of hay or straw following, namely:

For every livery or hack stable, 15 tons.

For storage or sale, 15 tons.

For private consumption, 2 tons.

29. No person shall, in any building where hay, straw, shavings or other combustible materials may be, smoke or have in his possession any lighted pipe, cigar or cigarette, or carry or keep, or suffer to be carried or kept, any lighted lamp, candle, or taper not being enclosed in a lantern or shade so as to prevent accident from fire therefrom.

SMOKE AND DRY HOUSES.

30. All smoke houses or dry houses shall be built of brick or stone, and the doors and roof of same shall be constructed of some non-combustible material.

SHAVINGS, HAY, STRAW AND LITTER.

31. Each person making, using or having the charge or control of shavings, hay, straw, paper, bags, litter or any other combustible waste or fragments, shall, at the close of each day, cause the same to be securely stored or disposed of so as to be safe from fire.

AISLES OF BUILDINGS.

32. All aisles and passage ways in buildings used for public assemblages shall be kept free from camp stools, chairs, benches, sofas, or other obstructions during any performance, service, exhibition, lecture, concert, ball, or public assemblage whatever.

SMOKESTACKS AND CHIMNEYS.

33. Whenever in the judgment of the Fire Wardens or upon the complaint of a majority of the residents adjacent thereto, any smokestack, chimney, flue or stovepipe endangers the surrounding property by fire, or annoys the residents in the neighborhood with smoke, soot or cinders, the Fire Wardens shall order the same to be abated, altered or improved as they may think most suitable for the protection of the surrounding property and conducive to the comforts of the residents in the vicinity.

UNOCCUPIED BUILDINGS.

34. Whenever any unoccupied building or buildings are not properly secured the Chief Engineer of the Fire Department or other officer in charge of said Fire Department, shall immediately visit the premises and notify the owner, agent, or person having control of same of the condition of the said unoccupied building or buildings, and to have it, or them, within twenty-fours, properly secured, so as to prevent evil disposed persons having access thereto.

PERMIT TO KINDLE FIRES.

35. No person shall kindle or cause to be kindled or used, any fire upon any street or highway, or anywhere in the open air in the City of Victoria, without a permit to do so signed by the Chief Engineer, or other officer in charge of the Fire Department. This section shall not include fire in furnaces necessarily used in laying roofs or pavements, nor the fires used in furnaces of engines necessarily used in blasting or hoisting, nor to fires in the open air upon private property, necessarily used in setting tires upon the wheels of vehicles or in heating tar or pitch.

ENFORCING REGULATIONS.

36. The Chief Engineer of the Fire Department, Assistant Chief Engineer, or any municipal police officer, may enter upon any property which is, or is reasonably supposed to be subject to the regulations of this By-Law, in order to ascertain whether such regulations are obeyed, and no person shall obstruct any such officer in the discharge of his duty.

37. Every person convicted of an infraction of any of the provisions of this By-Law shall forfeit and pay a penalty not exceeding fifty dollars.

REPEAL.

38. The by-law "For the Protection of the City against Fire," No. 1, the by-law, "Defining the Duties of Fire Wardens and regulating the the conduct of the inhabitants at fires," No. 2, "A By-Law for the protection of fire ladders within the City of Victoria," No. 73; the "Fire Alarm By-Law, 1882," No. 87, the "Petroleum By-Law, 1882" No. 92, sections 3, 4, 10, 11, 12, 13, 14, 15, 16, 17, 18, and 29 of the "Victoria Building By-Law, 1883," No. 98, and section 6 of the "Fire Limits and Wooden Buildings By-Law, 1883," No. 146, a By-Law for the prevention and suppression of fires, 1887, and so much of every other by-law as is inconsistent with this by-law or makes any provision for any matter herein provided for, are hereby repealed and this by-law is substituted for them.

Passed the Municipal Council the 3rd day of September, A. D. 1890.

Reconsidered and finally passed the Council this 23rd day of September, A. D. 1890.

VICTORIA, THURSDAY, OCT. 2

THE PRESS AND THE JUDICIARY.

He who rails at the press is either a fool or a bigot. He who, expressing an opinion of the press, charges it with being venal, either utters a deliberate falsehood or judges it by himself. He who is so intellectually infirm that he cannot perceive the drift of public opinion, or who is he be able to do so, is morally incapable of putting himself in sympathy with it, is a useless article of human furniture; he stands for no more value as a social factor than a mummy or any other relic of a bygone age. But do such men exist? Unquestionably. The world has more than enough of them. They are peculiar—it might be said indigenous—to all countries, to all communities, and to all neighborhoods. They are omnipresent. The problem of how to get rid of these gentry has exercised the human mind for centuries. They have been spattered with ridicule and satire; they have been buried deep under mountains of logic; they have been guillotined, and they have as a last resort been given the public school and the press. And have not these efforts to exterminate the silurian proved successful? it will be asked. Alas, no! The moss-back is irrepressible. He is still found in the crowd; he still bobs up serenely at every turn; he is as inevitable as death itself. For some inscrutable reason heaven ordained at the outset that he should constitute the tail end of the procession; should be to society what a scow is to a tugboat. And are such men peculiar to any given class of society? No! They permeate society from top to bottom. We find them in the ranks of labor; they are not unknown to the press; they abound among the politicians; they are not rare among the legal fraternity; we find them even among the judiciary. A sad commentary on human institutions that the judiciary should be so affected, but it is so, and we may add in passing that the world has less patience with judicial mossbacks than with any other class of professional men. We need not remark on the onerous duties which fall to the lot of the judiciary nor allude to the peculiar qualifications, mental and moral, they are called upon to exercise. We need only say of them that they are the bulwarks of free institutions, and that the public expect of them that they will mete out justice with an impartial hand. The public expect them to give the devil his due whether he wear the rough coat of labor or the broadcloth of the aristocrat; and that this end may be attained, that they shall be independent of any consideration whatsoever that might impair their conceptions of equity, the tenure of their functions has been made indefinite, that is to say until death or imbecility intervene. Nor must it be forgotten that they are paid excellent salaries. The question now arises, have the judiciary proved equal to the high trust which the necessities of society have lodged in their hands? Have they been able to divest themselves of the prejudices of caste, and to emancipate themselves of the influences of their social environment? Have they been able to rid themselves of their preconceptions? Have they accepted the fact that the people are capable of determining for themselves what is just and what is not? We should stultify ourselves and even worse if we should declare that the judiciary as a rule were not worthy of confidence, but we should also stultify ourselves and even worse, if we did not lay stress on the fact that there are notable exceptions.

The press stands to-day the acknowledged reflex of public opinion. We shall go further and say that it largely directs the current of public opinion. Not only does the press furnish the intelligence from which the public are able to draw their own conclusions, but to assist the public in this effort the ablest minds that civilization affords are employed to express their views in its columns. These circumstances considered, can it reasonably be held that the press is irresponsible, venal and mendacious? There are those among the judiciary who think that it is. There are judicial survivals of the 18th century who profess to regard the press venal, its influence pernicious, its members ignorant, boorish, "wretched," and they sniff and snarl at it on the bench as well as off it. What are we to think of such members of the judiciary? Shall such men be credited with sound judgment? Shall it be supposed that they have a proper conception of equity? Are such men sane? If journalism was in its experimental stage we might defer to judicial preconceptions in the matter. But journalism is not in its experimental stage. It has become a recognized force, a part and parcel of the body politic. It is now the great vehicle of thought. It has supplanted the rostrum.

Since thirty years past society has undergone a vast change. The relations of the different classes of society to one another have become modified and in some instances radically changed. There is no such thing any longer as master and man. Man has discovered that master cannot get along without him, no more than he can get along without the master. He has found out that they stand toward each other mutually obligated. With the altering of the relations between master and man, the simple has given place to the complex, and subtilities rise for elucidation which none but keen, clean, judicially constituted minds are capable of grappling with successfully. Have we in a man who traduces the press a man who is so constituted as to sit in judgment on matters and things? Shall we not suppose that such a man has outgrown his usefulness, and may we not conceive that such a man has become dangerous? Modern society requires modern men to judge it. The first half of the 19th century is no more fit to judge the last half than the latter will be fit to judge society fifty years hence. Few men grow with the times. After twenty-five years of public service they lag superfluous on the stage. They are only fit for museums. Shall such men judge us? We leave it to the public to decide.

WAS THE TRIAL REALLY IMPORTANT?

The Colonist and the Chief Justice disagree. The Colonist says the miners' trial was of unusual importance; the Chief Justice in charging the jury informed them that "no great responsibility rested on their shoulders," and this seems to be amply borne out in the fact that the men were discharged on their own recognizances. The position of the TIMES in relation to the intimidators is just this: It takes no stock in a prosecution which shows undue animus, regarding such not only wrong but impolitic. The offense for which the men were indicted was a venial one. The evidence was inconclusive, in other words, the guilt of the men was presumptive rather than prima facie, and it must be borne in mind that when we make use of presumption we make use of a weapon that cuts both ways. It is not a difficult mental feat to presume that the men assembled at the crossing were bent on intimidation. On the other hand, when we recollect that in previous demonstrations no symptoms of a desire to intimidate were evinced, have we not an equally strong presumption that this particular demonstration was simply intended as an expression of disapproval, as the others had been. To make our meaning clearer, we do not understand that a procession, or a mass meeting, means anything more than an expression of approval or disapproval. The demonstrations of the miners for two months had been accepted as such, at any rate. On a sudden a demonstration on August 4th is presumed to be hostile, dangerous to the bodily comfort of certain non-striking miners. Now, we contend that this presumption was unwarranted. If the miner's demonstrations for the preceeding two months were simply expressions of disapproval, is it not as easy to presume that they intended no more than that on Aug. 5th, as it is easy to presume that they were bent on doing violence to somebody. Notwithstanding that in this case it is as easy to presume one way as the other, the machinery of the law was strained to procure conviction of the defendants. This we objected to and we object to it still, and our attitude has been sustained in the fact that the defendants are now at large on their own recognizances. In important cases, convicted men are not turned loose on their good behavior. The Colonist as usual is a little mixed.

ENTRE NOUS.

The benighted Sitkans have the law of the territory expounded to them by a Judge BUGBEE. Some thoughtless poet has asked "what's in a name?" implying that "it is of no consequence" whether a man be called SMITH or SMYTHE, BUGBEE or BEGBIE. There is a good deal in a name, and we prefer the smooth-sounding cognomen of our own Chief Justice. BUGBEE is plebian, and therefore eminently befitting semi-barbarous Alaska,—while BEGBIE is suggestive of patrician blood and is more in keeping with the higher civilization of British Columbia.

There were 57 applications for the position of Engineer-in-Chief at Vancouver, of which 21 were from the United States. It is to be hoped if a Yankee gets the position, that the restrictionists of that city will insist upon a heavy duty being collected on his brains, and that the valuation be sworn to by the engineer himself and his employers. If we cannot trade with the Yankees we certainly do not want them to deprive our own citizens of the fat things going. The organs like the Colonist may say this is Know-nothingism; we reply that it is a less offensive kind than the trade restrictionists are fighting for.

A member of the Legislature, who supports the Government, stated on Government street last evening that HONEST JOHN would resign his seat for Westminster—in fact, he was certain that the resignation had already been made. We repeat the member's statement for what it is worth.

There is something very humiliating in the position of the school trustees. Elected by a constituency which had been manufactured by the Government, they are in open rebellion against the tyranny of one "master." They have found out, what every honest man has learned at some time or other in his life, that they cannot serve two masters. There is on one side the people of Victoria, about 25,000 of them, on the other ROBSON, POPE, & Co. Their duty is to manage the schools in accordance with the school law, which gives them power to expend money for that purpose. But ROBSON, POPE & Co. keep all the money voted for the Victoria schools in their possession, and pay only such orders given by the trustees as they deem expedient. They account for a ton of coal, for instance, if ordered by the trustees, could be repudiated by ROBSON & Co., who have only to refuse to issue a money warrant to accomplish their purpose. It matters not how trifling the expenditure the trustees incur, if the miserable tyrant who now disgraces the education office puts his foot down and refuses payment, they (the trustees) become personally liable. The position is unbearable and no person of spirit will tolerate it. Mr. CHARLES TAYLOR, chairman, and Mr. MATTI[illegible] interviewed the silly autocrat, but they accomplished nothing. They learned, it is true, that a nominally good man can lose his temper and approach dangerously near profanity without actually swearing, but secured no promise that the trustees would in future be treated as a responsible body of men. It is deplorable that the educational system of British Columbia should be under the direction of such an idiotic, vindictive triumvirate as now directs it; but there it is and there it will remain until the ROBSON Government is kicked out. That time, however, may not be so far off as some people imagine.

They have an idea up in New Westminster that the Hon. Senator MCINNES, who has, we are pleased to see, become a citizen of Victoria, will be a candidate for the position of Lieut.-Governor when the present term of Lieut.-Governor NELSON becomes vacant. Irishmen and Englishmen have had their turn, and we know of no reason why Scotchmen's claims should not be conceded. It was Senator MCINNES, it will be remembered, who moved to make Gaelic one of the official languages of Canada, a motion which was defeated only by an alliance between the English, Irish and French members. But Albion's sons never forget the motto of their country.

EDITORIAL NOTES.

Egyptian mummies have been found whose teeth had been filled with gold. Skulls recently taken from Etruscan tombs have artificial teeth. Some of these date back to the sixth century before Christ. One of these days somebody will discover that NEBUCHADNEZZAR used to read the telegraph dispatches from Thebes in the Morning Babylonion, that the type was set by the light of an electric lamp, and the rotary press worked by means of storage batteries.

Henceforth no buildings within the jurisdiction of the London County Council can exceed ninety feet in height. So the Lords' committee on the Council's bill has ordained, says the St. James Gazette, and its decision is eminently sensible. The limit of 70 feet, which the Council wished to fix, would have been too low, but in 90 feet there is nothing to complain of. We cannot afford to build more Queen Anne mansions 140 feet high, nor to imitate the enormously high blocks of buildings which are in such favor in America. They may be all very well in streets as wide as the Nevsky Prospekt, but in the narrow thoroughfares buildings of the New York type would shut out sun and air.

The Colonist regrets the contumacious attitude of the school trustees and deplores the sad fate which will overtake the school children in consequence. It is unfortunate that inocent children should shiver these cold fall mornings, but we are unable to see that the trustees can safely pursue any other course than they have. It has been forced upon them by the Government. We would recommend that the Colonist drop a little of its cant, and deal with the subject as it deserves. Either the Government or the trustees are in the wrong. If the trustees are in the wrong the Colonist should say so and give its reasons for it. If the Government is in the wrong it should be equally outspoken. Regrets are vain, and cant is disgusting. The Colonist should have the moral courage to lay the blame where it belongs or stop posing as a reliable and independent organ. The first thing the Colonist knows the Chief Justice will insinuate that it is as venal as it is "ignorant."

The Colonist says that 32 of the 40 miners who recently arrived at Wellington from San Francisco went to work in the mines of Messrs. DUNSMUIR & Co. Our contemporary makes the statement to refute the report of the Free Press that nearly all the new arrivals refused to go to work. The morning organ, not content with publishing what it believed to be the correct version, goes out of its way to libel its contemporaries. There was a time, and not so very long ago, when the morning paper was best known for its vulgar treatment of every individual in the profession outside of its own sanctum, but we had hoped that that day had gone by forever. The charge that the TIMES has "deliberately manufactured untruths" to keep up a division between miner and mine owner, and that it had "lied" for the purpose of pandering to a section of the community, is a silly falsehood told in a most offensive manner. The organ ought to think twice before returning to the old style of journalism. The TIMES only publishes what it believes to be true. Its information may at times be inaccurate, but that cannot justify these malicious charges.

EDITORIAL NOTES.

The Vancouver News says that the trades license by-law, which was in force without being enforced in that city for the past year, has been buried beyond the hope of resurrection. A Victoria by-law of a similar character, is at the present moment going into a decline which will prove fatal in a year or two if the proper remedies are not applied.

Between the tobacco and anti-tobacco people in the Methodist Conference it is a draw, the interesting question having been referred to a committee. It is to be feared that Christians will never be unanimous on the tobacco question. Some excellent men object to the weed, and others equally admirable use it. There is certainly nothing in the Scriptures for or against it. Probably the wisest thing that has been said about tobacco is that a gentleman will not use it in company, without permission, and that a man of sense will not touch it unless he likes it, and then only in moderation.

LORD WOLSELEY believes that in time the Chinese will overrun the world—as soon, in fact, as a great general or law-giver arises among them. At present they have no great leaders, for the simple reason that the Government puts out of existence every Celestial who displays more than average intelligence. It is narrated that when Commissioner Leh was asked whether it were true that he had beheaded sixty thousand men in three years, he replied:—"Oh, surely more than that." Lord WOLSELEY thinks, however, that a Chinese ALEXANDER or MOSES will come to the front some day, and that his people will then adopt the profession of arms and sweep over India, Russia and the Continent, and finally give England, America, and Australia a tussle for supremacy. This sounds chimerical, but we should not forget Rome and the Goths.

THE LEARNED CHIEF JUSTICE AND EDUCATION.

TO THE EDITOR:—Those who attended the late assizes must have noticed with pride the homage paid to education by the learned Chief Justice, who presided. One day he would not notify the special jurors that they need not attend the next day, because he did not wish or had no right to deprive any prisoner of the chance of getting an educated person on the jury. What about the petit jurors? In the Routledge case he undertook to correct a witness' pronunciation of the word clerk, and he went so far as to state that he doubted if a witness' evidence about guns or rifles was worth much who called himself a "klerk" whilst he was a "klark." Webster's dictionary gives only the one pronounciation, "klerk;" Worcester's gives both, "klark" and "klerk." The idea of the Chief Justice setting himself up as an authority on pronounciation and ridiculing a witness whose pronounciation was correct, according to those two authorities, may remind you of the Hon. John Robson setting himself up as an authority on daily marking in opposition to the teachers and the authorized text book on education prepared by Baldwin, a most eminent educationist. The Chief Justice, in the miners' case, repeated this expression: "The witnesses for the prosecution were *all* unanimous," etc. Any high school boy would detect the tautology at once, possibly some of the miners did; yet he called the miners an uneducated mob. Do you not think the public will see the point of the story about people who live in glass houses not throwing stones? AN M. A.

PERSONAL.

Movements of Well Known People in Various Directions.

A. Haslam, of Nanaimo, is in the city.

A. W. Smith, M. P. P. for Lillooet, is in the city.

John E. Glover of Hudson, Wis., registered at the the Driard yesterday.

Thos. E. Kitchen, M. P. P. for Westminster District, came down last night.

P. Steele, sr., leaves via the C. P. R. on Saturday on a visit to friends in the East.

Thos. Cunningham, ex-M. P. P. for Westminster, is in the city to attend the exhibition.

Messrs. T. E., W. H. and Paul Ladner of Ladner's Landing are registered at the Driard.

F. R. Glover, of the Columbian staff, is in the city to represent that paper during the exhibition.

Geo. W. Chadsey, President of the Westminster Agricultural and Industrial Association, is at the Oriental. He is accompanied by his wife and daughter.

Col. E. G. Prior, M. P., who commanded the Canadian team at Bisley this year, returned home last evening after a pleasant trip. He stopped in Ottawa a few days on his way across the continent.

Mr. More, Agent of the Bank of British Columbia, Nanaimo, has telegraphed his resignation to-day to London, owing to difference with the Victoria branch. Mr. More will leave Nanaimo in a few days.

Charming people, these exceptional people! Here's a medicine—Dr. Pierce's Golden Medical Discovery for inscance, and it's cured hundreds, thousands that're known, thousands that're unknown, and yet yours is an exceptional case! Do you think that that bit of human nature which you call "I" is different from the other parcels of human nature? "But you don't know my case." Good friend, in ninety-nine out of a hundred cases, the causes are the same—impure blood—and that's why "Golden Medical Discovery" cures ninety-nine out of every hundred. You may be the exception. And you may not. But would you rather be the exception, or would you rather be well? If you're the exception it costs you nothing, you get your money back—but suppose it cures you?

Let the "Golden Medical Discovery" take the risk.

WHARF AND WAVE.

Jottings of Interest to Marine Men Concisely Compiled.

Southeast winds are reported along the coast.

The steamer Michigan is due from Portland on the 5th inst.

The sealer Mary Taylor is nearly ready for sea, and will probably leave in a few days.

Sixty-one vessels, with a total tonnage of 67,828, are loading at ports in the northern waters of this section.

The sealer Viva, Capt. Baker, arrived this morning from Behring Sea with 2715 seal skins, her entire catch for the season.

The planking of the hull of the new ferry boat at Westminster is nearly finished, and as soon as the engines are ready she will be launched.

The sealers Ariel, C. H. Tupper, Lily and Sea Lion, of this port, are the only ones now out. The latter is daily expected, she having been sighted off the coast last week.

Arrangements are being made for the steamer City of Kingston to go into the Esquimalt dock on Saturday night to have her bottom cleaned. If she is not ready for her Sunday night trip the Islander will take her place.

Captain Manson's new steamer Thistle took a load of rails from Esquimalt to Comox to-day. The Thistle is a fine carrying boat, and well fitted for heavy work. She will get plenty of work in the future as she is a quick carrier.

The Puget Sound and Alaska Steamship's Company's steamer City of Seattle left Philadelphia for Tacoma on Saturday, September 20th. She is expected to make the trip in 70 days, which will bring her here a little before Christmas.

Thomas Nolan, the second mate of the ship Yorktown, which arrived at 'Frisco lately after a tempestuous voyage from New York, has been arrested by the United States marshal on a charge of murder. John Carr, a sailor on the ship, is the complainant. Nolan is charged with having caused the death of Boatswain Weston, who was washed overboard during the voyage. Carr says Nolan cut the rope that held Weston while at work making repairs under the bowsprit. Nolan denies the charge, and the story of several shipmates is that Nolan risked his life to try and save Weston.

SPORTING NOTES.

Brief Resume of Sporting Matters Here and Elsewhere.

A foot race is on the tapis between H. Peck, Nanaimo's champion, and Hayward, of Vancouver. The race is to take place in this city to-morrow afternoon.

THE TRACK.

The half mile dash to be run at the Victoria Driving Park on Saturday between Ito of this city, and Joe Wynne of Chicago, promises to be exciting, as the race is for "blood." Ito is backed by Victoria sports, and if Joe's backers have got any money and a better horse than Ito, they can make a big clean-up. The race is for $500 a side.

Thlinket Humor and Shrewdness.

That the Indians possess a keen sense of humor is shown in an amusing incident that happened among the Haidahs. Chief Bear Skin of Skidegate went to Victoria, where he had some high words with Judge Pemberton, who decided a case against him. Wondering, as he returned home, how it was possible to be revenged on Judge Pemberton, he decided upon lasting ridicule. Two totems were put up on each side of his house, and on top of both totems stood Judge Pemberton in frock coat and bell-crowned hat. From the roof of Bear Skin's house rose a third and taller totem from which a raven looked down with a broad grin directed toward Pemberton. A bear below was engaged in the same pleasing performance. Not yet content, Bear Skin put up a totem for his brother and again commanded the family bear to grin; which command was fully obeyed.

As the natives passed they recognized the likeness and never neglected to exclaim, "How are you, Pemberton?"

Smarting under this ridicule, Judge Pemberton waxed exceeding wroth and ordered the totem to be destroyed—an order that was unfortunately carried out.

Stoical as we consider the Indians, it only needs investigation to learn that they are fond of fun, though their fun may be unique.—Kate Field.

Arrived.

Bass XXXX Ale (Lamb's Wool) at the Occidental Hotel bar.

Merchants Luncheon.

From 11:30 until 2 o'clock and Lowenbrau at the Bank Exchange.

Steam Laundry, telephone No. 497. Branch offices, 74 Yates street and Trounce alley.

Large lines of new goods in furniture, carpets, glassware, etc., constantly arriving at John Weiler, 51 to 55 Fort street.

HE STEPS DOWN.

The Lord Mayor to Publish His Official Record.

LONDON, Oct. 1.—London's lord mayor intends to publish a volume on his year in office. A great many years ago this was done for the retiring lord mayor under the title of the "Splendid Annual." The corporation accounts just published include the payment of $250 to the lord mayor for income tax on allowance of £1,000. This is an allowance of a single item in the annual accounts. The lord mayor's establishment is well paid, and the sword bearer functionary, who precedes the lord mayor on all state occasions, has a salary of £450 a year.

Joseph Savoy, head of the well-known firm of Savoy & Smith, Cornhill, is to succeed Sir Henry Isaacs.

Fifty-eight pieces linoleums, latest designs in all widths and qualities, just arrived at John Weiler's.

You should secure a lot in Fernwood Beautiful, residential property. Enquire of the leading estate agents.

Tobacco and the Teeth.

The use of tobacco does not decay the teeth; the nicotine discolors them and the excessive use of the teeth by tobacco chewers naturally wears them down much more rapidly than if they were used simply to crush the food. Teeth, when worn down to the gum from this or other causes are in the condition so often described as "double teeth all the way round," presenting, as they do, a broad, smooth surface, not unlike the appearance, though slightly smaller, than the tops of the real double teeth.

A Tip to a Correspondent.

Gluck, the celebrated pianist, used to take his piano out of doors to play and we suggest that you follow his example. Take it away out-doors, the farther the better. The summit of Pike's Peak might do very well for a starter, and then if any one objects kill him, Annie, kill him! You certainly have some rights that the neighbors are bound to respect.

DISSOLUTION OF PARTNERSHIP.

THE PARTNERSHIP HITHERTO EXISTING between Joseph Sauer and J. B. Woods has this day been dissolved by mutual consent, the liabilities of the firm being assumed by Joseph Sauer, who will collect all accounts due them.

JOSEPH SAUER.

THE SWIFTSURE.

The Return of Her Crew Makes an Early Stay in the Pacific.

Naval and Military Journal, Sept. 11.]

The battleship Swiftsure, which arrived at Plymouth on Monday last, was commissioned by Captain James Hammet at Devonport on 24th April, 1888, and has consequently had a very short commission on a station which is not remarkable, as a rule, for brief periods of service. Vessels are frequently allotted to the Pacific for four years before the Admiralty make their mind up to relieve them, and the promptitude with which the Swiftsure's commission closed was due to the desire of their lordships to possess a more modern type of flagship in the Pacific. On the 21st May, 1888, the Swiftsure sailed from Plymouth with every prospect of remaining absent for upwards of four years, and many an honest tar who bade farewell to Sue on that occasion would have been agreeably surprised had he known that he would find himself back in England little more than two years later. The Swiftsure arrived on her station in August, and relieved the Triumph, which was then flagship of Vice-Admiral Heneage. The Admiral transferred his flag to the Swiftsure, and the Triumph returned to England to join the reserve. The commission has not been by any means an eventful one; but, on the other hand, it is satisfactory to be able to note that the vessel has been fairly comfortable, and that few changes have occurred amongst the officers, with the exception of one very important one, due to the untimely death of Commander Hockin, which occurred on 19th May, 1889. The place of Commander Hockin, who was much regretted by his subordinates, was taken by Commander Sampson, who previously served in the Volage and Caroline, and since that date there have been few changes in the personnel of the vessel. Whilst at San Francisco 22 of the crew deserted from the Swiftsure and made good their escape, but this is a common occurrence, and consequently our men-of-war seldom remain at that port for any length of time. Thousands of people visited the ship during her stay, and are said to have been greatly interested in the construction and armament of a vessell which to them seemed modern. In September, 1888, the admiral took a lengthy cruise—principally under sail, from Callio to Honolulu, a distance of about 5,000 miles—touching en route at the Galapagos Islands. This group, which is entirely uninhabited owing to the total absence of fresh water, is but seldom visited by ships, and the Swiftsure was the first vessel that had touched there for many years. The most interesting cruise, however, was in 1889, when Admiral Heneage, with two other ships in company, penetrated to a point some 700 miles to the northward of Vancouver's Island in the Alaska waters. This portion of the ocean is also but little known and entirely unsurveyed, the channels between the thousands of islands being in some cases so narrow that the yard arms grazed the trees on either side. On her return from this voyage the Swiftsure proceeded to Esquimalt, and there remained for six months pending the arrival of a new cylinder lining from England. In January of the present year the unexpected order to return home was received, and four months later Admiral Hotham arrived on the station in the Warspite to take over the command of the station. The Swiftsure has been more than three months on the voyage to England, proceeding in very leisurely fashion and stopping at Monte Video, Straits of Magellan, Bahia, Cape de Verde, and Madeira on the way. At Sandy Point, in the Straits of Magellan, the crew were occupied for nearly six days in taking in 400 tons of coal, owing to the lamentable deficiency in the coaling arrangements. It seems that at this important coaling station, there is but a solitary hulk—which may or may not have any coal on board—and only one lighter available for transporting the fuel. The Swiftsure left Madeira on the 29th August, and has experienced strong head winds during the latter portion of the voyage, so that she was considerably overdue. Yesterday afternoon the ex-flagship came up harbor, and was lashed alongside the jetty at Devonport, preparatory to being paid off into the second-class Steam Reserve, but the date of paying off has not yet been notified.

HARVESTING OPIUM.

How the Poppy is Gathered and the Drug Prepared.

Mr. Hosie, the British Consul at Wenchow, in his last report, contrasting the methods of harvesting the poppy prevailing in Western and Eastern China, says that if the cultivation of the poppy in the East were as skilled in the art of collecting the juice as their countrymen in Western China it is all but certain that the foreign import would be very small indeed. In Western China the capsules are scarified by means of a parallel row of knife points projecting from one of the ends of a short wooden handle. The incisions, which are exceedingly fine, are made in the evening and the juice, exuding slowly, is harvested in the morning before sunrise. There is no waste. In the eastern provinces, on the other hand, an instrument resembling a small carpenter's plane is employed. The operator passes the plane over the capsule, leaving the shaving of the skin attached to the lower end. The juice immediately exudes from the capsule, and although the collector follows closely on the the heels of the operator it flows so fast that much of it drops on the leaves of the stem and is lost. As an example of the manner in which native, as compared with Indian, opium is consumed in his district, Mr. Hosie mentions that a refuge for the cure of opium smokers was opened by a missionary in the city of Wenchow during the past year, and that out of many scores of applicants for admission only one smoker of Indian opium presented himself, and has ascertained from parties well qualified to judge that not more than 5 per cent. of smokers consume the foreign drug. With a view to insure the full payment of likin or inland transit dues on native opium, regulations were, with the sanction of the high provincial authorities, promulgated previous to the harvesting of last year's crop by the likin officers. They enjoined intending purchasers before proceeding to the country districts to report at the offices the quantities they proposed to purchase and to take out passes, which, with the opium, had to be presented at the barriers and stations for examination. Opium not covered by passes was to be confiscated and the parties prosecuted. But owing to the ease with which the drug can be concealed and smuggled the regulations have not been generally respected.

"Sir Loin."

There have been dozens of explanations given for the origin of the "sir" as supplied to the loin cut of the beef. The following is the true story of the origin of the term: James I, on his return from a long, wearisome tramp, with a hunting party, was so delighted with a hunting party, was so delighted with the joint served to dinner which he set down to dinner which [illegible] laid his sword across it and knighted it as "Sir Loin." At Chingford, Essex, England, at a demi-palace called "Friday House," there is still preserved the table used by the monarch upon that historic occasion. Set deep in the center of the table, which is of oak, there is a brass plate with this inscription: "All lovers of roast beef will like to know that on this table the loin was knighted by King James the First upon his return from hunting in Epping Forest."

CATARRH AND COLD IN HEAD HOW CURED

NASAL BALM CURES COLD IN THE HEAD CATARRH

NASAL BALM.

A certain and speedy cure for Cold in the Head and Catarrh in all its stages.

SOOTHING, CLEANSING, HEALING.

Instant Relief. Permanent Cure. Failure Impossible.

Many so-called diseases are simply symptoms of Catarrh, such as headache, partial deafness, losing sense of smell, foul breath, hawking and spitting, nausea, general feeling of debility, etc. If you are troubled with any of these or kindred symptoms, you have Catarrh, and should lose no time in procuring a bottle of NASAL BALM. Be warned in time, neglected cold in head results in Catarrh, followed by consumption and death. NASAL BALM is sold by all druggists, or will be sent, post paid, on receipt of price (50 cents and $1.00) by addressing

FULFORD & CO., BROCKVILLE, ONT.

Beware of imitations similar in name.

A BY-LAW

Authorizing the Sale of Part of Lot 423, Block 2, Victoria City.

WHEREAS THE PREMISES KNOWN AS the Deluge Fire Engine House and the Tiger Fire Engine House, both situate in the City of Victoria, are in close proximity to each other for the best protection from fire of the said City:

And whereas it has been found expedient to dispose of the premises known as the Deluge Fire Engine House and the Lot of land upon which the same is erected:

And whereas it is the intention of the Corporation of said City to purchase other land and premises at some more advantageous and useful position or positions in said City, and to use the proceeds of the sale of said Deluge Fire Engine House and premises in the purchase of the said other land and premises and the erection and establishment thereon of other fire engine stations:

Therefore, be it enacted by the Mayor and Aldermen of the Corporation of the City of Victoria, as follows:

1. That the Clerk of the Municipal Council of the City of Victoria be, and he is hereby authorized to sell on behalf of the Corporation of the said City of Victoria the buildings and premises known as the Deluge Fire Engine House and the Lot of Land upon which the same is erected, being part of Lot 423, Block 2, of the City of Victoria.

2. That the said clerk do advertise for tenders for the said land and hereditaments, and that the price at which the same are sold shall be first approved by the Municipal Council of the said City.

This By-Law may be cited as the Deluge Fire Engine Sale By-Law.

Passed the Municipal Council the 18th day of August, A.D., 1890.

Received the assent of the ratepayers, the 18th day of September, A.D. 1890.

Reconsidered and finally passed the Council this 30th day of September, A.D. 1890.

(L.S.) JOHN GRANT, Mayor.

CITY AND PROVINCIAL.

BOARD OF ALDERMEN.

Regular Business Meeting—Work Done—By-Laws in Prospective—Various.

The regular weekly meeting of the board of aldermen was held at the city hall last evening. Present, Mayor Grant in the chair, and Ald. Holland, Robertson, McMillan, Williams, Vigelius, Harrison, Goodacre and Kelley. Ald. Cameron and Dowler were absent.

Dowler read the following

COMMUNICATIONS:

From the Secretary of the B. C. Agricultural Association, inviting the board to attend the opening of the Exhibition on Friday.—Accepted with thanks.

From E. Bean, asking use of streets for building purposes.—Granted.

From W. H. Mason, in re application made some time ago for sidewalk and drain on Carr street, and complaining that nothing had yet been done in the matter.—Referred to committee.

From Stephen Jones, in re connection of drain with sewerage.—Referred to committee.

From the Victoria Trades and Labor Council, in reference to the establishment of a public market, and requesting an early move of the board in the matter.—Referred to committee.

From the secretary of the sewerage committee as follows:—1. That the council be recommended to arrange for securing the right-of-way through the property outside the corporation limits through which the main outfall sewer or sewers shall run. 2. That the council also be requested to provide suitable offices for the chief engineer of the sewerage works, and a separate one for the commissioners to meet in and keep all documents that may be in their possession from time to time.

Ald. Harrison said he had spoken to the agent of the land, and that gentleman had asked for a formal communication on the matter. In reference to the closing matters of the communication, it was evident they were needed. The mayor reported that work on suitable rooms at the city had been begun, and the clerk was instructed to correspond with the agent of the land in regard to running the sewer through it.

From Anton Henderson, complaining of bad drain near McClure street.—Referred to committee.

From S. P. Booth, asking for street lines on Work street, and asking for drain on same street.—Referred H. E. Croasdaile, asking for street lines.—Granted.

From the Provincial Government auditor, enclosing account for $6348.32 for teachers' salaries.—Ordered paid under protest.

From Eberts & Taylor in reference to a remark passed by Ald. Harrison in reference to a delay in the arbitration of the case of the Spring estate vs. the corporation, and intimating that the delay was on account of their refusal to assist the arbitrators. They did refuse to a certain extent and for a very proper reason. After the hearing the arbitrators requested them to draw the form of award against the city. This they declined to do on the ground that they might be instructed to appeal against it, and they then would be appealing against the validity of a document of their own drawing. Aldermen Harrison had failed to understand this.

The board expressed satisfaction with the letter and ordered it filed, Ald. Harrison disagreeing.

PETITIONS.

From residents asking that Fernwood road, the continuation of Chatham street regrading, etc., be set right.

Ald. Harrison said the city surveyor had instructions to prepare plan of the place, and it had been submitted to the city barristers, and nothing had ever been done since. It was either the fault of the city surveyor or the city barristers. The matter had been dropped by reason of the inertness of some party. He believed that there was a law to prevent parties from undermining the public roads. There was no use to get out plans and drawings and refer them to the city barristers requesting that the retaining walls be built, and then to have nothing done in the matter.

Ald. Vigelius explained that all the property holders on the line of the street but two had agreed to give a strip off their property to help widen the street. This had been one reason the work was not done.

On motion the maiter was referred to the street committee.

From residents on Fernwood road, asking for a four foot sidewalk—Referred to committee.

ACCOUNTS.

Accounts for the month of September were passed for payment.

NOTICE OF MOTION.

Ald. Holland gave notice that he should on the 8th of Oct., ask leave to introduce a by-law to provide for a site and the erection of a building for a public market.

Ald. McKillican's crematory by-law was laid over for one week.

REPORTS.

From the street committee recommending several minor improvements.—Adopted.

From the public market committee recommending the purchase of lots on Cormorant and Fisgard streets for a public market site.—Filed.

CITY LIMITS.

The following resolution moved by Ald. Harrison was passed: Whereas a large population resides just outside of the corporation limits, and whereas it would be undesirable to have other municipalities created on the borders of the city;

Therefore be it resolved, that steps be at once taken so that the limits of the corporation of the city of Victoria be extended to such an extent as is conferred by the powers contained in the Municipal Act, 1889, and amending act.

This was carried by six to two; the yeas being Alds. Kelley, Harrison, Vigelius, Wilson, McKillican and Holland; nays, Alds. Robertson and Goodacre.

VARIOUS.

The mayor recommended that iron hitching posts be procured for the front of the city hall.

In reference to an application of the I. O. O. F., for an acre in the cemetery, Ald. McKillican recommended that an acre be sold for $3,000.—Referred to city barrister.

The board then rose.

Wellington Coal.

The old reliable coal and wood yard, office 42, Yates street, is now prepared to supply the market with the best New Wellington Coal.

HEATHORN & McINTOSH.

Tacoma's Death Rate.

Dr. Milne of this city has received from the health officer at Tacoma a statement of the vital statistics of that city for the past month. Out of a population of 40,000 there were 73 deaths. During the [illegible] there were 52 births.

Buy Tickets on the Dock.

Hereafter, passengers leaving Victoria, by the Union Pacific for the Sound will have to buy their tickets on the dock instead of on the boats as heretofore. To allow of these arrangements the dock office, commencing tonight, will be kept open all night until the steamer leaves in the morning.

A Brave Act.

The Seattle Times says: A deck hand on the steamer Michigan performed a clever feat Sunday night by running the steamer without assistance. The vessel was lying at Hatfield's dock when the fire broke out. No one being present to assist him, he immediately turned on the engines and then rushed to the pilot house and took command of the wheel. After a few minutes' work he succeeded in putting her safely out into the stream.

Only Three Cases.

Sam Davis, a half-breed hop-picker, appearep in the police court this morning with his face badly scratched up, in answer to the charge of "being drunk on Herald street, contrary to the public morals by-law." Sam said he had lots of money when he came from Seattle, but he had wasted it on whisky and promised to try and scare up the necessary amount forthwith. W. McLean was registered ditto. Several cases in regard to the Johnson street ravine were also disposed of.

A High Jump.

Late last night Officer Irvine, of the city police, came about as near to being flattened out as it was possible to be without being hurt. He was walking down Yates street, and when just in front of a prominent hotel, something that seemed to shake the whole neighborhood came down with a thump. On investigating the matter, Officer Irvine discovered that the thing that came down was a woman, who had jumped from a second story window, in escaping from a jealous colored women. The affair will be ventilated in the police court.

Beautiful Women.

The magical efforts of Wisdom's Robertine as a beautifer and preserver of the complexion have been attested by thousands of leading ladies of society and the stage. It is the only article ever discovered which gives a natural and beautiful tint to the complexion, removing tan, sunburn, freckles and all roughness of the face and arms, leaving the skin soft, smooth and velvety. All remarks on its delightfuly cooling and refreshing properties, a distinction not found in any other similar article known. D. E. Campbell, agent.

Harvest Festival Service.

The annual Harvest Festival will be held at Christ Church cathedral at 8 o'clock this evening. There will be a full choral service, with appropriate anthem, the preacher being the Rev. W. D. Barber, late of Winnipeg, who has been appointed by the Bishop to take charge of the Victoria West mission. There well doubtless be a very large congregation, taxing the accommodation of the present building to its utmost capacity. It is hoped that the next festival will be held in the proposed new stone cathedral, which events such as that of this evening show to be urgently needed.

Vancouver Customs.

The returns at the port of Vancouver for the quarter ending September 30, are as follows:

IMPORTS.

Contributors to the Provincial Museum.

Following were the contributors to Provincial Museum during September: Victoria—Miss McCandlish, Edith Burt, D. D. McTavish, W. Shears, Ashdown Green, James Deans, Mandie Lawry, Fred. Neaves, L. Roscamp, Ross McDowell, Chas. Mallandaine, Chas. Taylor, Phillip C. Woolly, Master Hunter, H. Croft, John Walby, Frank Taylor, T. B. Norgate, Nettie McDowell, J. W. Green, Natural History Society, Dottie Robinson, Mabel Cameron, Master Jack Hannington, Fred. Fell, William Mackey, Arthur Mottram, Grace Burt, Robt. Jessie, Victor Ireland, C. Roscamp, R. W. D. Harris, Edgar McMicking, Prof. Townsend, U. S. Steamer Albatross. Port Townsend—Judge Swan. Canoe Pass—Alex. Anderson. Salt Spring Island—R. Thomas. Enderby—Chas. DuBois Green.

Vancouver's Engineer-in-Chief.

Henry Buckler Warren is the name of the newly appointed engineer at Victoria. He has had a varied experience and in many places. From 1870 to 1875 he was in the employ of the celebrated English engineer, W. McCandlish, as assistant engineer; for 19 months from February, 1875, to August, 1876, he was engaged as engineer on the Bolivar railway in Venezuela, and returned to England at the latter date on account of his health. On June 22nd, 1877, he was appointed a railway trial surveyor by the Government of New South Wales. He resigned this position on January 31st, 1883, to accept the position from the Queensland Government of resident engineer of the Cooktown railway. On September 29th, 1888, he was temporarily appointed as engineer-in-chief of surveys by the same Government. On December 4th, 1889, he applied for leave of absence till the end of February, 1890, and at expiration of that time tendered his resignation.

THE CRY OF MILLIONS

OH, MY BACK!

STOP IT NOW.

MORE AT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was bent over. When I sat down it was almost impossible for me to get up alone, or to put on my clothes, when kind Providence sent Dr. Henley, with the OREGON KIDNEY TEA, to my hotel. I immediately commenced using the tea. The result was almost miraculous effect, and to the astonishment of the people at the hotel, in a few days I was [illegible] that I was a new man. I will recommend the tea to all afflicted as I have been.

BRIEF LOCALS.

The Day's Doings in City and Province Briefly Related.

W. T. Drake has removed his coal office to near James Bay Bridge. *

[illegible] appointed harbor master officer at Esquimalt, vice the late [illegible]

Hilbert's boot and shoe stock at 74 Yates street must be sold regardless of cost. tf

The three new cars to be used on the Esquimalt addition of the tramway arrived from the east last evening.

Don't fail to attend the clearing sale of boots and shoes at Hilbert's 74 Yates street. tf

Capt. Shears, paymaster, will be at the drill shed this evening to pay the troops who went to Wellington during the strike.

If you want to get bargains in shoes, come while the stock is assorted at 74 Yates street. tf

Members of the city police force have donned their winter helmets, and they will in consequence be a little less prominent looking.

Some of the latest novelties in the new lot of silverware just received by Lange & Co.

Ah Tun, the Chinaman who was badly cut at Nanaimo by two other Chinamen, is still improving, but the doctors are not yet hopeful of a successful issue.

The harvest festival will be held at Christ Church Cathedral this (Thursday) evening at 8 o'clock, when the sermon will be preached by the Rev. W. D. Barber, B. A.

Lost Three Fingers.

Harry Wilkinson, an employee at Muirhead & Manns' planing mills had three figures of his right hand cut off yesterday by being caught in the machinery. The wounds were dressed by Dr. Morrison and the patient is doing as well as could be expected.

"East Lynne" To-night.

The Black Flag was well presented and favorably received by another large audience at the Victoria last night. To-night "East Lynne, or the Elopement," one of the most popular plays ever presented to the public, will be the attraction. As played by the Russell Jewell Company it is considered the best of their repertoire. The company is a thoroughly good one and is deserving of the liberal patronage so far accorded it.

Sealers Arrive.

The sealing schooner Viva, Captain Baker, arrived from the sealing grounds with 2713 skins, the largest catch for the season. Making the second time she has topped the list. The schooner Lily, reported lost, was spoken Aug. 17th in the sea. The Viva encountered rough weather coming down, lost her jibboom and sprung her bowsprit just off Queen Charlotte. The American schooner Allie L. Alger was spoken coming down with 2400 skins.

The Sea Lion also arrived to-day with 1850 skins.

They Are Greenhorns.

A gentleman resident of Wellington, who came down to-day, says that the reports published in the TIMES in regard to the men who came up to work in the Wellington mines, are correct. Firty-two men came up and not more than twenty are at work. They wanted to join the union, but were advised to go to work instead and accumulate a few dollars to get away out of the district. This they are doing, and the informant told a TIMES reporter to-day that the 10th of October would see them returning to San Francisco. The men, he says, are greenhorns in spite of the reports to the contrary, and went to work for $3 a day with a promise of a raise when they learnt something. The fact of the matter is that the men are making enough to get out of the country and are getting $3 a day for work that they cannot do.

Shocking and Fatal Accident.

On Tuesday last Mr. Robert Fanning, the contractor for the great arch at the corner of Columbia and Douglas streets, Westminster, commenced taking down the structure, according to agreement. He had removed some of the upper part of the arch, and was on the south side of the erection and resting on the cross beams, when, it is thought, having released the pole by means of knocking away the boards that retained it in place, the ponderous beam of heavy timber came crushing down and struck the unfortunate man a dreadful blow on top of the forehead, stunning and knocking him across the beam he had been resting on. Almost immediately a lighter piece struck him heavily on the back part of the skull. The wounded man began to bleed copiously and presented a horrible sight to the eyes of the multitudes who hurried towards the scene. After a few minutes of confusion and irresolution, a brother workman mounted the ladder and passed a rope around the body of the injured man. With the help of another comrade the unconscious form was finally lowered gently to the ground where it was immediately surrounded by a dense throng. Drs. Hall and Cooper were instantly summoned, and the unfortunate man was conveyed to his room in the Caledonia hotel, where every attention was given him, but he gradually sank until shortly after 12 o'clock, when he breathed his last. Mr. Fanning was between 30 and 40 years old and a native of Eastern Canada; for some time before coming here he worked at his trade of carpenter, contractor and builder in the Sound cities. He came here last winter and has done a good deal of work for the corporation, being esteemed a first-class workman and a very steady, sensible man. He is a widower and has three children, two of whom are in the east, the other, a young lad of about 14 or 15 years old, is with him here, and is employed in one of the city butcher shops.

York Farm, Moosomin, N. W. T.

Writing from this fertile district, Mr. G. E. Clark, says: "I had a severe attack of diarrhœa, but was quickly cured by using Dr. Fowler's Extract of Wild Strawberry."

Thermometer at Cochrane & Munn's.

Temperature to-day, 60 deg.

Do you Eat?

For dinner to-day, or ice cream remember Steitz's, 48 Yates street. *

For a first-class shave or hair-cut go [illegible]

Ladies and Gentlemen.

Do not throw away your rubber boots, shoes, coats or gossamers, because they are torn or have a few holes worn in them. Remember they can be made as good as new by Geo. A. Shade, shoemaker, 87½ Wharf street. oct1-1m

Coal Shipments.

The following are the coal shipments, as entered at the Nanaimo Customs House, for September:

	Tons
New Vancouver Coal Co.	25,380
Wellington	300
East Wellington	3,589
Union Coal Co.	6,500
Total	35,429

At the Front.

It is stated, says the Free Press, that the contingent of the C Battery—five officers and no privates—are ordered back to the barracks at Victoria. One report states that the military are to be withdrawn entirely from Wellington, while another report says the present force will be replaced by a corporal and two privates.

A. O. F. District Court.

The Foresters District Court of British Columbia, will hold its session in the Forester's Hall, Nanaimo, on Friday, Oct. 14th, 1890. Delegates will be present from each Forester's lodge in the Province. A banquet will be given the visitors in the evening, by the members of Court Nanaimo Foresters' Home No. 5086.

Must Keep Out.

The saloon keepers around the city have been notified that hereafter they will have to be very careful and not allow boys under 20 years of age inside their doors. This action has been taken under the new law passed a few weeks ago by the City Council fixing a fine of $100 on the saloon for every boy under 20 years who drinks over his bar.

Coal for the Schools.

S. D. Pope, superintendent of education, yesterday ordered four tons of coal for the public schools and consequently the pupils will be cold no longer. When ordering it he informed the coal merchant that the bill was to be sent to him and it is to be supposed that hereafter the superintendent is going to take the management of the schools out of the trustees' hands.

Quinlan-Parks.

The residence of Mrs. Allan, 18 Rupert street, was the scene last evening of the wedding of Dr. W. J. Quinlan and Miss Lily Parks, both of this city. Rev. Dr. Reid performed the ceremony in the presence of only a few near relatives of the contracting parties. Misses Hattie and Edith Mallette, nieces of the bride, acted as bridesmaids and the groom was supported by his friend W. C. Mathews. Mrs. Chas. Mallette gave the bride away. After the ceremony had been performed a prettily decorated drawing room was thrown open to the many friends of the newly married couple who crowded many handsome presents on the tables. The couple left for southern California by the steamer North Pacific this morning.

The following are the list of presents: Set of knives and forks with pearl handles, Mr. and Mrs. T. Earle; silver berry set, Mrs. J. D. Bryant; silver egg set, Mrs. J. D. Bryant; silver cruet stand, Mr. and Mrs. F. Williams; silver cake basket, Mr. G. Garesche; pair of vases, S. Somerville; silver soup ladle, Robert Ker; glass bouquet holder, Mrs. J. T. Harrison; silver salt cellar, Miss E. Beaven; silver five o'clock tea set, Mr. and Mrs. Pennock; pepper and salt, Mr. and Mrs. Dixie H. Ross; nut bowl, Mr. Freeman; silver sugar bowl, G. Munroe; whisk holder, Misses Story; heavy silver napkin rings, C. Hayward; silver cake knife and oxidized silver nut set, Mr. and Mrs Robert Grant; oxidized silver coffee spoons, Mr. and Mrs. W. McCulloch; handsome embroidered handkerchief case, Mrs. McKeown; silver and glass butter-dish, C. Dickenson; silver fish knife and fork, Mr. and Mrs. Henry Young; silver sugar dish, Mr. and Mrs. Chudley; lace handkerchief, W. Monroe; glass tea and water set, Misses Cameron; silver flower stands, Mr. E. W. Matthews and Mr. H. McInnes and Mr. A. Jones; salad bowl, Mr. and Mrs. A. J. Smith; silver tea service, Mr. and Mrs. C. E. Mallette; silver pickle stand, George Stelly; silver egg stand, Mr. J. Wenger; Japanese china set, Mr. E. W. Matthews; silver pickle dish, Nellie Brodrick; vase, Henry Ella; silver stand with ornamented sugar and cream jug, Mr. and Mrs. Richardson; silver pie knife, Mr. C. Rattray; silver egg, salt and pepper stand, Mr. and Mrs. C. Hayward; silver pickle stand, Mr. and Mrs. Wm. Dalby; set of silver coffee spoons, Mr. and Mrs. Monat; salt and pepper stand and oxidized coffee spoon, Mr. E. J. Anderson; silver butter dish, Mr. and Mrs. John Graham; silver sardine fork, R. Seabrook; silver coffee spoons, Nellie Carmichael; handsome table cover, Mr. and Mrs. C. N. Cameron; handsome colored glass water set, Mr. and Mrs. Sandover; pair of cups and saucers, Mr. H. Helmcken; silver and glass biscuit jar, Mrs. L. A. Clark; ornamented water set, Mr. and Mrs. J. S. Yates; a cheque from Mrs. P. Burrell.

Baby Buggies, the finest and largest assortment in the city at low prices, from $9.50 up, at J. Sehl's 66 Government street.

Oft in Peril.

Lives of children are often endangered by sudden and violent attacks of cholera, cholera morbus, diarrhœa, dysentery, and bowel complaints. A reasonable and certain precaution is to keep Dr. Fowler's Extract of Wild Strawberry in the house.

At Dixi H. Ross & Co.'s.

MARRIED.

QUINLAN-PARKS.—At the residence of the bride's mother, Mrs. A. Allan, on 1st Oct., by the Rev. Dr. Reid, Walter J. Quinlan to Lilian Edith Parks, both of this city.
